

High-Intensity Rechargeable LED Flashlight

This high-intensity LED flashlight is designed for durability and performance. It features a rechargeable battery, providing long-lasting illumination for various applications.

Product Overview

High-Intensity Performance

This high-intensity LED flashlight is engineered for durability and reliable performance in demanding environments. Featuring a robust construction, it offers excellent impact resistance and an ergonomic design for a comfortable, secure grip. The integrated rechargeable battery ensures long-lasting illumination, while the adjustable focus mechanism allows users to seamlessly switch between wide-angle coverage and concentrated beams.

Technical Specifications

Head Diameter	1.35 in
Power Source	Rechargeable

Features

Beam Type

Adjustable Focus • Wide-Angle • Concentrated

Build Quality

- Impact Resistant
- Robust Construction
- Ergonomic Grip
