

# High-Intensity Remote Battery Torch

This high-intensity torch is designed for specialized applications. It features a robust, compact battery pack connected via a durable cable to a focused beam light head.

## Product Overview

### Professional Illumination Solutions

This high-intensity torch is engineered for specialized professional applications where reliability and performance are critical. The system features a robust, compact battery pack linked to a high-output beam head via a durable, heavy-duty cable. Designed for demanding environments, this tool provides powerful illumination while supporting hands-free operation to maximize productivity and safety on the job site.

## Design & Build

### Design Features

Rugged Construction, Hands-Free Operation, Remote Battery System

## Certifications & Marking

### Compliance and Markings

TEC Certified • FIRE Rated
