

High Leverage Cable Cutter

This heavy-duty cable cutter features a high leverage design for efficient cutting of various types of cables. It has precision-ground cutting blades and comfortable ergonomic handles.

Product Overview

Professional High Leverage Cable Cutter

This heavy-duty cable cutter is engineered for efficient cutting across a wide range of cable types. Featuring durable steel construction and precision-ground blades, it ensures clean, accurate cuts with minimal physical effort. Designed with ergonomic handles, this tool significantly reduces user fatigue, making it an ideal choice for professional electricians, technicians, and contractors handling electrical wiring and communication cables.

Technical Specifications

Intended Applications

- Electrical Wiring
- Communication Cables
- General Cable Applications

Target Users

Electricians • Technicians • Contractors

Construction Material

Durable Steel

Design Features

High Leverage, Precision-ground Blades, Ergonomic Handles
