

High Output Ice Block Production Machine

This high-output ice block machine is designed for efficient and reliable ice production. It features a robust refrigeration system, precise temperature control, and a durable construction for long-lasting performance.

Zhejiang Qingfang Refrigeration Equipment Manufacturing Co., Ltd

Product Overview

High Output Ice Block Solutions

Engineered specifically for demanding coastal and tropical climates, this ice block machine provides a robust and reliable solution for commercial ice production. The system features an integrated design that simplifies setup, requiring only water and power connections to begin operation. With advanced energy economizers and protective functions for unstable power environments, it ensures consistent performance and durability.

Performance Metrics

Ice Block Weight Options

- 2kg
- 5kg
- 10kg
- 20kg
- 50kg
- 100kg

Production Cycle Times

- 2h
- 3h
- 4h
- 6h
- 8h
- 12h
- 24h

Technical Features

Unstable Power Protection	Yes
Installation	Integrated system; requires only power and water source connection

Compliance & Logistics

Certifications	CE
Packing Method	Air bubble film inner layer with wooden box exterior
