

High-Performance Audio Subwoofer

This high-performance subwoofer is designed for deep bass reproduction in audio systems. It features a reinforced cone, high-excursion surround, and a powerful magnet structure for optimal sound quality and durability.

Product Overview

High-Performance Audio Subwoofer

This high-performance subwoofer is expertly engineered for deep, impactful bass reproduction in professional audio systems. It features a robust construction, including a die-cast aluminum basket with a precision CNC finish and a non-shiny paper cone. Designed for durability and optimal sound quality, this unit ensures reliable performance and an immersive listening experience for demanding audio applications.

Construction & Materials

Basket Material	Die-Cast Aluminum with CNC Finish
Cone Construction	Non-Shiny Paper Cone
Surround Material	Rubber
Gasket	Black Rubber

Performance Features

Magnet Structure	High Performance Magnet
Key Features	High Excursion, Deep Bass Reproduction, Durable Construction, Secure Terminals
