

High-Performance Auto Engine

This is a high-performance auto engine designed for optimal power. It features a multi-blade cooling fan, intricate fuel injection system, and robust block.

Product Overview

High-Performance Engineering

This high-performance auto engine is engineered for optimal power delivery and operational efficiency. It features a robust, green-painted block design that ensures durability under demanding conditions. With an intricate fuel injection system and a multi-blade cooling fan, this unit is built to provide reliable performance for automotive applications.

Technical Specifications

Key Components

- Multi-blade cooling fan
- Fuel injection system
- Engine hoses
- Filtration system

Cooling System	Multi-blade cooling fan
Fuel Delivery	Intricate fuel injection system
Construction	Robust block, Green-painted finish, Metallic components
