Product Overview

High-Performance Engine Intercooler

This high-performance engine intercooler is engineered to significantly improve engine efficiency and power output. Featuring a robust core construction, it provides optimal heat dissipation to effectively reduce intake air temperatures. Its durable design ensures minimal pressure drop and reliable performance, making it an ideal upgrade for maintaining engine health and responsiveness under demanding driving conditions.

Compatibility

Compatible Vehicle	Hyundai Santa Fe (CM) 2.2D
Model Year	2006

Technical Specifications

Core Dimensions	311.3 x 354.5 mm
OEM Reference	28271-27800
Nissens Reference	56223
DPI Reference	96366
TS Number	56223
