

High-Performance Gasoline Engine

This high-performance gasoline engine is designed for various applications. It features durable construction and efficient combustion for reliable power output.

Product Overview

High-Performance Gasoline Engine

This high-performance gasoline engine is designed for reliability and efficiency across a range of small machinery applications. Featuring a compact and durable construction, it integrates seamlessly into equipment such as lawnmowers, generators, and water pumps. The engine utilizes an effective air-cooled system to ensure optimal operating temperatures during extended use.

Technical Specifications

Model Number	1E36FD
Displacement	30.5 ml
Net Weight	4.2 kg

Performance Metrics

Maximum Power Output

0.81 kW
Power

6000 r/min
Rated Speed

Applications

Suitable Applications	Lawnmowers, Generators, Water Pumps
