

High-Performance Intercooler for Enhanced Engine Cooling

This high-performance intercooler enhances engine efficiency by cooling compressed air, leading to improved combustion and increased horsepower. It is constructed with durable materials, ensuring reliable operation and efficient heat dissipation.

Product Overview

High-Performance Intercooler

This high-performance intercooler is engineered to significantly enhance engine efficiency and power output by effectively cooling the intake air charge. By reducing intake air temperatures, it increases air density, allowing for improved combustion and overall engine performance. Designed for durability and optimal heat dissipation, it is an ideal solution for turbocharged or supercharged vehicle applications seeking reliable performance gains.

Technical Specifications

Core Dimensions	580 x 112.5 mm
Water Tank Dimensions	79 x 79 x 116 mm

Compatibility

Compatible Vehicle	Jeep Compass
Engine Type	1.4T
Model Year	2017

Identification

TS Number	56205
Nissens Reference	56205
