

High-Performance Intercooler for Enhanced Engine Cooling

This high-performance intercooler enhances engine efficiency and power by reducing the temperature of compressed air. Its durable construction ensures optimal heat transfer, providing improved combustion and increased horsepower.

Product Overview

High-Performance Engine Cooling

This high-performance intercooler is engineered to significantly enhance engine efficiency and power output. By effectively reducing the temperature of compressed air from the turbocharger before it enters the engine, it facilitates a denser air charge for improved combustion. Designed for durability and optimal thermal management, this unit is an ideal upgrade for demanding automotive applications.

Technical Specifications

Core Dimensions	705 x 112.6 mm
Water Tank Dimensions	79/79 x 116 mm
TS Number	56224

Compatibility

Compatible Vehicle	Civic 1.5T
Model Year	2016
OEM Reference	19710-5AA-A01
DPI Reference	19710-5AA-A01
Nissens Reference	56224
