

High-Performance Power Blender with Brushless DC Motor

This high-performance power blender features a brushless DC (BLDC) motor for efficient and durable operation. It is designed for versatile blending tasks, including smoothies, soups, and food processing.

Product Overview

High-Performance Blending Solution

This power blender is engineered with an advanced brushless DC (BLDC) motor, ensuring both high efficiency and long-term durability for demanding tasks. It is designed to handle a wide range of applications, from crafting smoothies and soups to complex food processing. Featuring a stainless steel container and intuitive controls, it provides the precision and reliability required for both professional and home environments.

Technical Specifications

Power Rating

2600 W
Power

Motor Technology

Brushless DC (BLDC)

Design & Build

Container Material

Stainless Steel

Control & Operation

Control Features

- Multiple speed settings
- Preset blending programs
- User-friendly control panel

Safety & Compliance

Safety Features

Overheat protection, Secure lid locking mechanism

Application

Intended Use

Home Use • Professional Use
