

High-Performance Signal Reception Antenna

This high-performance antenna is designed for optimal signal reception. It features a robust construction and adjustable mounting bracket for precise alignment and maximum signal strength.

Product Overview

High-Performance Signal Reception

The S035W-2 is a high-performance antenna engineered for optimal signal reception across diverse environments. Featuring a robust construction, this unit is built to withstand challenging weather conditions while maintaining consistent performance. Its included adjustable mounting bracket ensures precise alignment, making it an ideal solution for both residential and commercial signal requirements.

Technical Details

Mounting Features

- Adjustable mounting bracket
- Precise alignment capability

Durability

Weather-resistant • Robust construction

Model Number

S035W-2

Ideal Applications

Residential, Commercial
