Product Overview

Professional Audio Subwoofer

This high-performance subwoofer is engineered for exceptional audio reproduction in professional setups. Built with a heavy-duty steel basket and a 4-layer black aluminum voice coil, it delivers consistent, clear, and powerful bass. The design features a stitched surround, Conex spider suspension, and high-strength ferrite magnets to ensure maximum durability and acoustic precision for demanding audio applications.

Technical Specifications

Performance Comparison

| Model | Size | RMS Power | Sensitivity | Freq Range |
|---------|---------|-----------|-------------|------------|
| LLD-12D | 12 Inch | 250 | 90 | 38-4.0kHz |
| LLD-10D | 10 Inch | 200 | 88 | 41-4.5kHz |

Design Features

Stitched Surround, Dual PCB Terminal, 4 Ohm Impedance, Rubber Gasket

Construction & Materials

Component Materials

- Heavy duty steel basket
- PP cone with rubber edge
- PP dust cap
- Conex spider suspension
- 40 Oz high strength ferrite magnet
