

# High-Power LED Lamp with Heat Sink

This high-power LED lamp is designed for efficient and long-lasting illumination. The lamp incorporates a heat sink for optimal thermal management and stable performance.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance LED Illumination

This high-power LED lamp utilizes advanced chip import and automatic packaging technology to deliver superior brightness, stability, and light quality. Engineered with a high-quality aluminum heat sink, it ensures effective thermal management for extended operational life. Designed for seamless compatibility, it serves as a direct, energy-efficient replacement for traditional lighting solutions.

## Performance Metrics

### Energy Savings

**5 W**

Power Consumption

**13 W**

Equivalent Traditional Lamp

**62 %**

Efficiency Gain

## Technical Specifications

Drive Type

DC Drive

Heat Sink Material

High-quality aluminum

Key Features

No Noise, No Flash, High Stability, High Light Efficiency

## Applications

### Recommended Applications

- Hotels
- Shopping Malls
- Showcase Lighting
- Entertainment Venues
- Home Lighting
