

High-Power LED Street Light with Aluminum Heat Sink

This high-power LED street light is designed for efficient and reliable illumination. It features a robust aluminum heat sink for optimal thermal management and extended lifespan.

Product Overview

High-Performance Outdoor Illumination

This high-power LED street light is engineered for efficient and reliable outdoor illumination, making it an ideal solution for street lighting, parking lots, and security applications. It features a robust aluminum heat sink designed for superior thermal management, which significantly extends the operational lifespan of the unit. Equipped with multiple COB LED modules, it delivers high brightness and uniform light distribution for enhanced visibility and safety.

Technical Specifications

Base Type	E26/E27
Thermal Management	Aluminum Heat Sink
Lighting Technology	COB (Chip-on-Board) LED Modules

Application & Usage

Suitable Applications	Street Lighting, Parking Lots, Security Lighting, Outdoor
