

# High-Pressure Airless Wall Coating Sprayer

This high-pressure airless paint sprayer is designed for professional wall coating applications. It features a robust pump mechanism for consistent material delivery and a durable frame with integrated hose reel for easy maneuverability.

## Product Overview

### Professional High-Pressure Airless Sprayer

This high-pressure airless wall coating sprayer is engineered for demanding professional applications, providing reliable performance for both interior and exterior wall coating tasks. Featuring a 4KW motor and a maximum pressure capacity of 30 bar, this unit ensures consistent material delivery and efficient coverage. Its robust design is built for durability and mobility, making it an ideal choice for contractors who require high-performance equipment for protective coatings and paints.

## Technical Specifications

Input Power	4 KW
Voltage	400 V
Frequency	50 / 60 Hz
