

High-Pressure Bicycle Floor Pump

This high-pressure bicycle floor pump features a durable aluminum alloy barrel, ergonomic handle, and stable base. It is equipped with a universal valve head compatible with Presta and Schrader valves, along with a built-in pressure gauge.

Product Overview

Professional High-Pressure Floor Pump

This high-pressure floor pump is engineered with a robust steel body and reinforced steel base to ensure longevity and stability during use. Designed for versatility, it features a universal valve head that seamlessly switches between Presta and Schrader valve types. Whether for mountain bikes, road bikes, or general inflatable equipment, this pump provides efficient and accurate inflation performance.

Construction

Materials

Steel Body, Steel Base

Compatibility

Supported Valve Types

- Presta
- Schrader

Key Features

Product Highlights

High-Pressure Output • Universal Valve Compatibility • Ergonomic Grip • Stable Base
