

High-Pressure Bicycle Floor Pump

This high-pressure bicycle floor pump features a durable steel barrel and ergonomic handle. It is equipped with a precise pressure gauge for accurate inflation and a versatile valve head compatible with both Presta and Schrader valves.

Product Overview

Professional High-Pressure Floor Pump

This high-pressure bicycle floor pump is engineered for durability and precision, featuring a robust steel barrel designed for long-term reliability. Its ergonomic handle ensures comfortable operation during inflation, while the integrated, easy-to-read pressure gauge allows for accurate tire pressure management. Compatible with both Presta and Schrader valves, this versatile tool is the ideal solution for maintaining road, mountain, and hybrid bicycle tires.

Technical Specifications

Key Features
