

High-Pressure Bicycle Foot Pump

This high-pressure foot pump is designed for inflating bicycle tires. It features a robust metal construction, integrated pressure gauge, and a secure foot pedal.

Product Overview

High-Pressure Bicycle Foot Pump

This high-pressure foot pump is designed for efficient and reliable bicycle tire inflation. Built with robust metal construction, it offers durability for both home workshop use and travel convenience. The integrated pressure gauge ensures accurate inflation, while the stable foot pedal design allows for comfortable operation.

Technical Specifications

Key Features

- Integrated pressure gauge
- Secure foot pedal operation
- Flexible hose
- Clip-on valve connector

Country of Origin

Made in China

Valve Compatibility

Schrader, Presta

Construction Material

Metal
