

High Pressure Car Washing Spray Gun

This car washing spray gun is designed for high-pressure cleaning. It features adjustable nozzles for variable spray patterns and connects to standard pressure washers.

Product Overview

High-Pressure Cleaning Performance

This high-pressure car washing spray gun is engineered for efficient and effective vehicle cleaning, suitable for both professional and home use. Featuring a durable metal lance constructed from chrome-plated stainless steel, it offers robust performance and long-term reliability. The ergonomic design ensures a secure grip and precise control, allowing users to easily remove stubborn dirt, grime, and debris.
