

High-Pressure Cleaning Machine

This high-pressure cleaning machine is designed for demanding cleaning tasks. Its robust engine, durable frame, and large wheels ensure portability and suitability for various outdoor cleaning applications.

Overview

High-Performance Cleaning Solution

This high-pressure cleaning machine is engineered for demanding cleaning tasks in various environments. Featuring a robust engine and a durable frame, it is built to withstand rigorous use while maintaining reliability. Large wheels ensure excellent portability, making it an ideal choice for versatile outdoor cleaning applications.

Technical Specifications

Engine Model	165
Model Number	GG9/15
Power Source	General Power Engine

Design Features

Portability	Large Wheels, Durable Frame
