Product Overview

High-Pressure Grease Application Solutions

This range of high-pressure grease guns is designed for efficient lubrication of machinery and equipment in industrial and maintenance environments. The collection includes various models, each engineered to handle specific lubrication needs with capacities ranging from 500cc to 900cc. These tools are built for durability and are available in bulk packaging options to suit professional supply requirements.

Performance Metrics

Available Capacities

500cc, 600cc, 900cc

Technical Specifications

Model Specifications

Model	Capacity	Qty/Carton	Measurements (mm)
GG001	500cc	12	390*280*415
GG002	500cc	12	390*280*415
GG003	500cc	12	410*280*400
GG004	500cc	10	385*345*365
GG005	900cc	10	520*420*320
GG006	500cc	10	440*290*380
GG007	500cc	10	450*300*400
GG008	600cc	10	440*290*380
