

High Pressure Industrial Cleaning Machine

This high-pressure cleaner is designed for industrial and heavy-duty applications. It delivers a high-pressure water flow for effective cleaning of various surfaces.

Product Overview

Industrial Cleaning Performance

This high-pressure cleaning machine is engineered for demanding industrial environments, featuring a robust gasoline engine and a durable swashplate plunger pump structure. Designed for versatility and mobility, it offers adjustable pressure settings and ceramic pistons to ensure long-term reliability and effective cleaning power. The foldable handle design and wheeled frame facilitate easy transport, making it an ideal solution for heavy-duty surface and equipment maintenance.

Performance Metrics

Performance Specifications

330 bar

Max Pressure

15 L/min

Max Flow Rate

6.5 HP

Power Output

Technical Specifications

Available Pressure Ratings

- 150 bar (2200 psi)
- 180 bar (2600 psi)
- 220 bar (3200 psi)

Flow Quantity Options

- 8.5 L/min (2.0 GPM)
- 8.5 L/min (3.0 GPM)
- 15 L/min (4.4 GPM)

Physical Dimensions

Attribute	Value
Packing Size	74 x 58 x 48 cm
Weight	58 - 59 KGS

Features & Accessories

Key System Features

Gasoline Engine • Swashplate Plunger Pump • Ceramic Piston • Foldable Handle • Soap Adsorption Function • Water Temperature Control

Included Equipment

Water Cannon HPG06, 8m High Pressure Pipe, Five Nozzle Set, 3m Feed Line, Filtering Option
