

# High-Pressure Steam Generator Iron with Separate Base

This high-pressure steam generator iron features a separate base unit. It provides enhanced steam production and convenient ironing.

## Product Overview

### High-Pressure Steam Generator Iron

The HG-138P2 is a high-pressure steam generator iron designed for efficiency and convenience. It features a separate base unit that enhances steam production, making it suitable for both professional and domestic ironing tasks. With a durable soleplate and precise temperature control, it ensures smooth gliding and excellent wrinkle removal for extended sessions.
