

High-Pressure Washer

This high-pressure washer is engineered for robust performance and reliability. It delivers consistent pressure for demanding cleaning tasks with its durable motor and high-efficiency pump.

Model	YLQ7600G-130	YLQ7600G-100
Voltage (V)	230V-50Hz	120V-60Hz
Motor Type	Induction Motor	Induction Motor
Motor Power (W)	2400	1800
Rated Pressure (bar)	130	70
Max. Pressure (bar)	130	70
Rated Flow (L/min)	8.2	7.0
Weight (kg)	6.5	5.5
Case Material	ABS	ABS
Case Dimensions (mm)	200x150x100	180x130x90
Case Color (RAL)	7035	7035
Lead Quantity (MOQ)	1000	1000

Product Overview

Industrial-Grade Cleaning Performance

This high-pressure washer is engineered for robust performance and reliability in demanding cleaning environments. It features a durable brass triplex crankshaft plunger pump with coated ceramic plungers to ensure longevity and corrosion resistance. Equipped with an induction motor and self-suction capabilities, this unit is ideal for industrial, commercial, and heavy-duty cleaning tasks.

Key Features

Core Technologies

Brass Triplex Pump, Coated Ceramic Plunger, Built-in Regulator, Double Water Sealing, Self-Suction Function, Multiple Nozzles

Performance Metrics

Model Specifications

Model	Voltage (V)	Motor (W)	Rated Pressure (bar)	Rated Flow (L/min)
YLQ7600G-130	230	2400	100	8.2
YLQ7600G-100	120	1800	70	7

Performance Highlights

500 Hours

Operational Life

130 bar

Max Pressure (130 Model)
