Product Overview

High-Efficiency Surface Cleaning Solution

This high-pressure washer features a durable full aluminium pump designed for stable, powerful output during demanding cleaning tasks. Equipped with a Total Stop System (TSS), it automatically manages energy consumption and extends pump life by shutting off when the trigger is not in use. Its ergonomic, lightweight construction and integrated storage solutions make it an ideal choice for mobility and efficient workflow in various professional and residential settings.

Performance Metrics

Performance Overview

1700 W
Max Power

5.5 L/min
Water Flow

150 bar
Max Pressure

Technical Specifications

Model Comparison

Model	Power	Working Pressure	Weight
ABW-VCL-70(P)	1400W	70bar	7kgs
ABW-VCL-90(P)	1600W	90bar	8kgs
ABW-VCL-100(P)	1700W	100bar	8.5kgs

Operational Features

Key Capabilities

- Total Stop System (TSS) for energy saving
- Adjustable spray nozzle for varied patterns
- 11m combined working range
- Full aluminium pump construction
- Ergonomic lightweight design

Logistics

Supported Voltages

220V-240V/50Hz, 100V-127V/50-60Hz
