

High-Pressure Washer with 196CC 4-Stroke Engine

This high-pressure washer has an axial pump with a rated pressure of 19MPa and a flow rate of 10L/min. It features a 196CC 4-stroke engine with recoil starting and operates effectively in ambient temperatures from 0°C to 60°C.

Product Overview

Professional Performance High-Pressure Washer

This high-performance pressure washer is powered by a robust 196CC 4-stroke engine, delivering reliable cleaning power for demanding environments. Designed with an axial pump and capable of reaching a rated pressure of 19MPa (2800PSI), it ensures efficient removal of dirt and grime. With convenient features like low-oil shutdown, thermal protection, and a versatile 4-nozzle system, this unit is engineered for both safety and operational flexibility.

Performance Metrics

Rated Pressure

19 MPa

Rated Pressure

2800 PSI

Rated Pressure

Max Pressure

24 MPa

Flow Rate

10 L/min

Engine Specifications

Displacement	196 CC
Max Output	5.5 HP
Engine Speed	3600 RPM
Fuel Tank Capacity	3.6 L
Oil Capacity	0.6 L

Features & Equipment

Key Characteristics

- Low oil shutdown
- Low-pressure detergent injection
- Thermal protection
- Recoil starting system

Included Accessories

5M Pressure Hose, Metal Lance, 0° Nozzle, 15° Nozzle, 40° Nozzle, Detergent Nozzle
