

High-Pressure Washer with Adjustable Nozzle

This high-pressure washer features a robust pump and adjustable nozzle for versatile cleaning. It includes a coiled high-pressure hose and filtered intake hose.

Product Overview

Professional Cleaning Performance

This high-pressure washer is engineered for versatile cleaning tasks, ranging from air-conditioning units to industrial kitchen equipment. Featuring a durable metallic frame and cover, it is built to withstand demanding environments while delivering fast and accurate results. With adjustable performance settings, it provides the flexibility needed for various spray applications.

Performance Metrics

Water Flow Rate

2.9 L/min

Low Flow

6 L/min

High Flow

Motor Output

250 W

Low Power

400 W

High Power

Working Pressure

35 Mpa

Low Pressure

60 Mpa

High Pressure

Design & Build

Included Accessories

- Quick-connect water hose fitting
- Adjustable nozzle
- High-pressure hose
- Intake hose with filter

Construction

Metallic Frame, Metallic Cover

Applications

Best Suited For

Air-conditioner cleaning • Kitchen equipment • General spray applications
