Overview

High-Performance Drain Cleaning Solution

This high-pressure water jetting machine is engineered for efficient cleaning of drain lines ranging from 50mm to 300mm. Powered by a robust 22HP gasoline engine, it delivers a consistent working pressure of 2500psi to tackle stubborn blockages. The unit includes advanced features like pulse technology for navigating tight bends and a foot pedal for enhanced operator safety.

Performance Metrics

Key Performance Metrics

2500 psi

Working Pressure

45 lpm

Flow Rate

22 HP

Engine Power

60 m

Max Hose Length

Technical Specifications

Drain Line Compatibility	50mm to 300mm (2 to 12 inches)
Machine Weight	158 kg

Included Equipment

Standard Kit Components

- Foot Pedal for safety
- 30° Propulsion Nozzle
- 15° Penetrating Nozzle
- Hose Reel with 9.5mm x 60M Jet Hose
- Cleaning Lance with Brass Turbo Nozzle

Features

Key Features

Pulse Technology, Gasoline Powered, Safety Foot Pedal, High-Pressure Cleaning
