

High-Resolution Color Video Camera with Optical Zoom

This is a high-resolution color video camera with digital zoom. It uses a CCD image sensor and has an auto-focus optical zoom lens with a 3.9-85mm focal length and 1:1.6 aperture.

Overview

High-Performance Surveillance Imaging

This high-resolution color video camera is engineered for professional monitoring and surveillance applications. It features a sophisticated CCD image sensor that ensures detailed image capture and clarity. With an advanced auto-focus optical zoom lens, this unit provides the flexibility needed for various installation environments and monitoring distances.

Optical Specifications

Focal Length Range	3.9-85 mm
Aperture	1:1.6
Optical Zoom Power	32 x

Technical Features

Image Sensor	CCD
Focus Mode	Auto Focus
Zoom Type	Optical Zoom, Digital Zoom
