

High-Speed Lockstitch Sewing Machine with Auto Thread Trimmer

This is a high-speed, single-needle, lockstitch sewing machine for heavy-duty applications in the apparel and textile industry. It features an integrated control panel for precise stitch adjustment, automatic thread trimming, and a direct-drive motor.

Overview

High-Performance Industrial Lockstitch Machine

The LS 9990MW-TD3-J is a high-speed, single-needle lockstitch sewing machine engineered for demanding industrial environments. It features an integrated control panel for precise stitch adjustments and a direct-drive motor that enhances energy efficiency while minimizing operational noise. Designed for versatility, this machine handles a wide spectrum of materials ranging from lightweight fabrics to heavy canvas and leather, making it an essential asset for garment manufacturing and upholstery applications.

Technical Specifications

Model Number	LS 9990MW-TD3-J
Drive System	Direct-drive motor
Automation Features	Auto Thread Trimmer, Integrated Control Panel

Application

Material Compatibility

- Lightweight fabrics
- Heavy canvas
- Leather

Primary Use Cases

Garment Manufacturing • Upholstery • Industrial Sewing
