

High-Speed Overlock and Chainstitch Sewing Machine

This high-speed overlock and chainstitch sewing machine is designed for various fabrics. It is suitable for overlocking and bordering thin, medium, and thick fabrics, as well as trouser pocket sewing.

Overview

High-Performance Sewing Solutions

This series of high-speed sewing machines includes specialized models for five-thread, four-thread, and three-thread overlocking, as well as two-needle chainstitching. Engineered for versatility, these machines are suitable for processing thin, medium, and thick fabrics with precision. They are ideal for industrial applications such as overlocking, bordering, and trouser pocket sewing, offering high-speed performance to meet demanding production requirements.

Technical Specifications

Sewing Capabilities

- Five-thread overlocking
- Four-thread overlocking
- Three-thread overlocking
- Two-needle chainstitching
- Trouser pocket sewing
- Bordering

Performance Metrics

5500 s.p.m

Max Speed

Needle Compatibility

GNx1 #9~11 • GNx1 #11~14 • GNx1 #14 • GNx1 #16~18 • GNx1 #16~20

Available Models

GN17-1 Series, GN8-4 Series, GN8-1 Series, GK101-1

Model Comparison

Model Specifications

Model	Needle Type
GN17-1	GNx1 11~14
GN17-1H	GNx1 #16~20
GN17-1U	GNx1 11~14
GN8-1P	GNx1 #9~11
GN8-1H	GNx1 #16~18
GN8-4H	GNx1 #14
Gk101-1	GNx1 11~14
