

High-Speed Overlock Sewing Machine

This high-speed overlock sewing machine is designed for manufacturing garments, shoes, and accessories. The industrial-grade machine provides precise stitching and durable construction for efficient production.

Overview

Industrial Performance Overview

This high-speed overlock sewing machine is engineered specifically for the demanding requirements of garment, footwear, and accessory manufacturing. Built for industrial-grade durability, it delivers precise, consistent stitching to maximize production efficiency. The unit includes advanced features like adjustable stitch length and differential feed, making it a versatile solution for a wide range of fabric types and professional applications.

Technical Specifications

Suitable Applications

- Garment Manufacturing
- Footwear Production
- Accessories Assembly

Interface

User-Friendly

Machine Type

High-Speed Overlock

Key Features

Adjustable Stitch Length, Differential Feed, Industrial Grade, High-Speed Operation
