

High-Speed Plastic Bag Making Machine

This high-speed plastic bag making machine is designed for efficient production of various plastic bags. It features automatic feeding, sealing, and cutting mechanisms.

Overview

High-Performance Bag Production

This high-speed plastic bag making machine is engineered for the efficient, large-scale production of diverse plastic bag formats, including flat bags and t-shirt bags. It features advanced programmable logic control (PLC) for precise adjustments of bag dimensions and sealing parameters, ensuring consistent quality. Built with a robust frame for stability during continuous operation, this machine is a reliable solution for demanding manufacturing environments.

Technical Specifications

Key Components

- Film unwinding unit
- Sealing bar
- Cutting blade
- Bag collection system

Compatible Materials

HDPE, LDPE, PP

Control System

Programmable Logic Controller (PLC)

Safety & Compliance

Safety Features

Emergency Stop • Protective Guards
