

High-Speed Steel Circular Saw Blade

This high-speed steel circular saw blade is designed for cutting various materials. Its precision-ground teeth ensure clean and efficient cuts, while its durable construction provides extended life and wear resistance.

Product Overview

Precision Cutting Performance

This high-speed steel circular saw blade is engineered for professional cutting applications, offering exceptional durability and wear resistance. Featuring precision-ground teeth, it ensures clean, efficient cuts across a wide variety of materials. Its robust construction is designed to provide an extended service life in demanding industrial environments.

Technical Specifications

Manufacturing Origin

Germany

Material

High-Speed Steel (HSS)

Blade Type

Circular Saw Blade

Key Features

Precision-ground teeth, Wear-resistant, High-speed steel construction
