

High-Speed Steel Circular Saw Blade

This high-speed steel circular saw blade is designed for precision cutting of wood and other materials. It features durable construction with hardened teeth for an extended lifespan and efficient cutting performance.

Product Overview

High-Performance Cutting Solution

This high-speed steel circular saw blade is engineered for precision cutting across wood and various other materials. Built with durable construction and hardened teeth, it ensures an extended operational lifespan and consistent, efficient cutting performance. It is an ideal choice for professional woodworking applications, delivering clean and accurate results every time.

Technical Specifications

Material	High-Speed Steel (HSS)
Key Features	Hardened Teeth, Precision Cutting, Durable Construction
Mounting	Central Arbor Hole

Applications

Compatible Materials

- Wood
- General Purpose Materials
