

High-Speed Steel Circular Saw Blade for Metal Cutting

This high-speed steel circular saw blade is designed for cutting metal. It features precision-ground teeth for clean and efficient cutting.

Product Overview

High-Speed Steel Circular Saw Blade

This high-speed steel circular saw blade is engineered specifically for precision metal cutting applications. Featuring precision-ground teeth, it ensures clean, efficient cuts and consistent performance. Built from durable materials, this blade is designed to withstand the rigors of metal shearing machines and industrial cutting environments.

Technical Specifications

Key Features

- Precision-ground teeth
- High durability construction
- Optimized for industrial shearing machines

Material	High-Speed Steel (HSS)
Primary Application	Metal Cutting, Metal Shearing
