Product Overview

Professional Countersink Solution

This High-Speed Steel (HSS) countersink drill bit is engineered for efficiency, allowing users to drill and countersink in a single operation. Designed for precision and durability, it features a 2-flute design that ensures smooth, chatter-free performance across various materials. It is compatible with bench drills, hand drills, and conventional drilling equipment, making it a versatile tool for professional woodworking and abrasive material applications.

Technical Specifications

Size Options

- 4.5mm
- 5mm

Material	High Speed Steel (HSS)
----------	------------------------

Drill Process	Brad point
---------------	------------

Countersink Flutes	2
--------------------	---

Usage & Compatibility

Suitable Materials	Wood, Hardwood, Plastics, Abrasive materials
--------------------	--

Compatible Equipment	Bench drills, Hand drills, Conventional drills
----------------------	--

Packaging

Packaging	PVC bag
