

High Speed Steel Track Drill Bit

This high-speed steel track drill bit is designed for precision drilling in demanding applications. It features a robust construction and optimized flute design for effective chip evacuation.

Product Overview

High-Speed Steel Solid Track Drill

This high-speed steel solid track drill is engineered for precision drilling in demanding industrial applications. Designed with robust construction and an optimized flute geometry, it ensures efficient chip evacuation and consistent performance. It is an ideal solution for professionals requiring accurate hole creation in environments such as petrochemical engineering and petroleum prospecting.

Technical Specifications

Material	High Speed Steel (HSS)
Design Features	Solid Construction, Optimized Flute Design

Applications

Primary Applications

- Petrochemical Engineering
- Petroleum Prospecting
- General Industrial Drilling
