

High-Speed Zigzag Sewing Machine

This high-speed zigzag sewing machine is designed for versatile stitching applications. It features robust construction for industrial use and precise control mechanisms for accurate stitching on various fabric types.

Product Overview

High-Speed Zigzag Sewing Machine

This high-speed zigzag sewing machine is engineered for versatile industrial applications, including high-grade wear, underwear, footwear, headwear, and leather goods. It features advanced control systems, such as a micro-controlled presser foot lifting mechanism, to ensure high-quality stitching while preventing fabric damage or wrinkles. With multiple pattern options and robust internal components like titanium-plated hooks, it offers a reliable and cost-effective solution for diverse textile manufacturing needs.

Key Features

Stitch Patterns

- Alternating one step two points
- Three step four points
- 11 distinct patterns available via pattern panel

Performance Features

Micro control presser foot, Compensating hook system, Low tension sewing optimization, Ti-plated hook, Mini oil lubrication

Technical Specifications

Model Series

LS-T2284N • LS-T2280N

Maintenance & Endurance

Feature	Benefit
Ti-plated Hook	Increased endurance and reduced heat
Mini Oil Lubrication	Reduces heat and avoids pollution

Applications

Suitable Industries

High-grade wear, Underwear, Shoes, Hats, Leather goods, Luggage, Decorative sewing
