

High-Strength Hex Head Bolt

These high-strength hex head bolts are precision engineered for secure fastening. They are available in multiple sizes and materials to meet specific project requirements, offering exceptional durability and corrosion resistance.

Product Overview

High-Strength Industrial Hex Head Bolts

These high-strength hex head bolts are precision-engineered for secure fastening across a wide range of industrial applications, including building, automotive, and furniture assembly. Built to meet rigorous international standards such as DIN, ISO, and ASTM, they offer exceptional durability and reliability. Available in multiple material grades and protective finishes, these fasteners are designed to perform consistently in demanding environments.

Technical Standards

Standard Systems

- DIN
- ISO
- ANSI
- ASME
- BS
- AS
- JIS

Supported Standards

DIN931/33, DIN960/61, DIN934, DIN125/27, DIN6914/15/16, DIN7990, ISO4014/17, ASTM A325, ASTM A490, ASTM A563, ASTM F436, ASTM A193 B7, ASTM A194 2H

Material & Finish

Material

Carbon Steel • Alloy Steel

Finish Options

Plain, Black oxidized, Zinc Plated, Hot Dip Galvanized, Dacromet

Performance

Available Grades

- 8.8
- 10.9
- 12.9
- gr5
- gr8

Logistics & Supply

Monthly Supply Ability

800 tons

Supply Capacity

Delivery Lead Time

7-30 days

Standard Packaging

25kg per carton, 36 cartons per pallet

Applications

Primary Applications

Building, Instrument, Automobile, Furniture
