Overview

Professional Carpet and Floor Drying Solution

This high-velocity carpet and floor dryer is engineered for rapid moisture removal in demanding professional environments. Featuring a robust, high-strength polyethylene housing and an advanced blast impeller design, it delivers powerful airflow to accelerate drying times significantly. With multi-angle air supply capabilities and a portable, ergonomic design, it is an essential tool for cleaning services, water damage restoration, and facility maintenance.

Design & Construction

Housing Material	High-strength polyethylene
Portability	Top handle, Easy to lift, Easy to move

Performance

Safety Features

- Motor mesh cover
- Anti-suction design

Airflow Angles	3 angles
----------------	----------

Specifications

Power Cord Length	6 m
-------------------	-----

Applications

Suitable Environments

Hotel • Warehouse • Factory • Cleaning Services • Restoration
