

# High Velocity Floor Fan

This high velocity floor fan features elegant metal appearances and quality motors. It is suitable for high humidity and temperature circumstances and available with brushless DC options.

## Product Overview

### High-Performance Industrial Air Circulation

These high-velocity fans are engineered for demanding environments, offering robust metal construction and reliable motor performance. Ideal for spaces requiring high air volume, they are particularly effective in high-humidity and high-temperature conditions. The series includes versatile options such as stand, floor, oscillating, and drum configurations, with energy-efficient brushless DC motor options available.

## Key Features

### Product Highlights

High Velocity Airflow, Metal Construction, Humidity Resistant, Heat Resistant, Brushless DC Option

## Performance Metrics

### Maximum Air Volume

**7500 m<sup>3</sup>/h**

Air Volume

## Technical Specifications

### Model Specifications

Model	Voltage (V)	Frequency (Hz)	Power (W)	Air Volume (m <sup>3</sup> /h)
HVFF-35S1-A	120	60	65	1050
HVFF-35S1-B	220	60	65	1050
HVFF-35S1-C	230	50	65	1050
HVFF-40C	230	50	85	1500
HVFF-45C-A	120	60	120	1800
HVFF-45C-B	230	50	120	1800
HVFF-50-A	120	60	130	2500
HVFF-50S-B	120	60	150	2500
HVFF-55	120	60	170	3000
