

High-Velocity Industrial Stand Fan

This high-velocity industrial stand fan is designed for powerful air circulation in large spaces. The fan features a robust motor, durable metal construction, and adjustable height for optimal airflow control.

Product Overview

High-Velocity Industrial Stand Fan

This high-velocity industrial stand fan is engineered for powerful air circulation in large-scale environments. Built with a robust motor and durable metal construction, it ensures reliable performance in demanding settings like warehouses and factories. Its adjustable height and stable base provide both versatility and secure operation for optimal airflow control.

Technical Specifications

Ideal Environments

- Warehouses
- Factories
- Commercial Spaces

Construction Material	Durable Metal
Safety Features	Protective Grill, Stable Base

Features

Key Performance Metrics

1 High

Airflow Velocity

Adjustability	Yes
