

High-Visibility Reflective Safety Vest

This high-visibility safety vest enhances visibility in various work environments, particularly in low-light conditions. Constructed from fluorescent yellow fabric, it features a contrasting black trim along the edges and a horizontal reflective stripe to improve visibility during nighttime or in dimly lit areas.

Product Overview

Professional High-Visibility Safety Gear

This high-visibility safety vest is engineered to enhance worker safety in demanding environments. Crafted from fluorescent yellow fabric with strategically placed reflective stripes, it ensures maximum visibility during both daylight and low-light operations. Its lightweight design allows for comfortable layering over existing uniforms, making it an essential choice for construction, traffic management, and emergency personnel.
