

High-Visibility Safety Helmet

This high-visibility safety helmet is designed for construction and industrial environments, providing head protection from impacts. It features a durable outer shell and adjustable headband for a secure fit, along with ventilation slots for breathability.

Product Overview

Professional Head Protection

This high-visibility safety helmet is engineered for reliable protection in demanding industrial and construction environments. Constructed with a durable outer shell, it provides essential defense against impacts and falling objects. The integrated ventilation slots and adjustable internal mesh belt ensure long-term comfort for the wearer during extended shifts.
