

# High-Visibility Strobe Beacon

This high-visibility beacon light is designed for diverse applications. Operating on 12-110V DC power, it features durable construction for reliable performance in demanding environments.

## Product Overview

### Reliable High-Visibility Signaling

This high-visibility strobe beacon is engineered for demanding industrial and emergency environments. Designed to provide a bright, attention-grabbing signal, it significantly enhances safety and awareness on construction sites and for emergency vehicles. Its durable construction ensures reliable performance across a wide range of professional applications.

### Key Attributes

High-Visibility • Durable Construction • Wide Voltage Range

## Technical Specifications

### Operating Voltage

**12 V DC**

Min Voltage

**110 V DC**

Max Voltage

### Light Source Type

Xenon

### Mounting Style

Bolt Bag

## Safety & Compliance

### Safety Features

- High Voltage Caution
- Power disconnect required before cover removal
- Shock prevention design

## Applications

### Recommended Applications

Emergency Vehicles, Construction Sites, Industrial Settings, Safety Signaling
