Product Overview

Professional Traffic Safety Solution

This high-visibility traffic cone is engineered for reliability in construction zones, parking lots, and emergency scenarios. Featuring a fluorescent orange finish and integrated reflective bands, it provides superior warning capabilities for both day and night use. Its durable, UV-resistant composition ensures long-term performance and resistance to fading or aging under harsh environmental conditions.

Technical Specifications

Available Profiles

- Slim body
- Normal body

Core Features

Stackable • Reflective • Fluorescent • Weather-Resistant

Material Composition

UV-Resistant, High-Impact PVC, Durable Plastic

Applications

Recommended Use Cases

- Traffic safety and control
- Construction sites
- Hazard marking
- Training facilities
- Parking lot management
