

# High-Visibility Yellow Softshell Work Jacket

This high-visibility yellow softshell jacket enhances safety in low-light conditions. It is constructed from durable, weather-resistant material and includes multiple zippered pockets.

## Product Overview

### High-Visibility Softshell Protection

This high-visibility softshell jacket is engineered for demanding outdoor work environments, offering a blend of durability and comfort. Constructed from a 300g softshell fabric, it provides essential weather resistance while maintaining flexibility for active tasks. With features like triple stitching and multiple functional pockets, it is designed to meet the rigorous needs of industries such as oil, gas, mining, and road construction.
