

HJ92F Mechanical Seal

Mechanical seal designed for agitators in the dairy industry. Compliant with standards for reliable performance.

Product Overview

High-Performance Mechanical Sealing Solution

The HJ92F mechanical seal is engineered for demanding industrial environments, specifically optimized for agitators within the dairy industry. Designed for reliability and longevity, this seal utilizes advanced sealing technology to ensure consistent performance and minimal leakage. Its robust construction makes it a dependable choice for critical rotating equipment.

Technical Specifications

Available Models

- HJ92F / 30
- HJ92F / 40

Primary Industry	Dairy Industry
Equipment Compatibility	Agitators
